PRODUCT LINE

Intercan provides a comprehensive range of can sizes, catering to various industries with precision. Our offerings include cans in sizes ranging from 250ml 55mm round cans to 20-liter 277mm round cans, designed to meet the specific requirements of different sectors. Our expertise extends to an array of products, such as baby powder cans, food cans, seeds, toffees, and sugary items, as well as cans for paint lines, thinners, pesticides, and lubricants. With our specialized solutions, we ensure that each product receives the ideal packaging for its intended purpose, guaranteeing the highest quality standards for our clients across diverse industries.

Processed food cans (flattened & built-up) closed and open (EOE)

We offer a complete range of food cans in various sizes, ensuring hygienic packaging and germ-free processing. Our cans are equipped with both outside printing and inner food-grade lacquering, making them suitable for a wide range of products such as processed food, vegetables, pulp, fruits, desi ghee, and other edibles. For the export market, we source high-quality food-grade lacquers from renowned suppliers, allowing us to consistently meet our clients' demand for export-quality food cans.

99MM	Desi Ghee 1Kg	120 +- /5 gram

99MM	Seeds can 1Kg with EOE	110 +- /5 gram

PAINT LINE

One of our top-performing product lines is focused on general paint solutions, encompassing enamels and emulsions with lacquered inners. These premium enamels are essential for construction, maintenance, and industrial applications. At Intercan, we take pride in offering a diverse selection, ranging from 250ml cans to 20-liter drum sizes, complete with an array of lid options, including cushion ring and slip lid choices. Our commitment to excellence ensures that our paint packaging solutions meet the highest standards of quality and functionality.

277MM	Paint 16Ltr/18Ltr/20Ltr	1350 +/-50 gram

THINNER LINE

The viscosity of thinners poses packaging challenges, especially considering the highly corrosive nature of the key component, MEK (Methyl Ethyl Ketone). Ensuring proper handling and maintaining quality conformity are vital for the safety of this hazardous liquid. At Intercan, we have achieved product quality superiority in this sensitive packaging segment by implementing processes that guarantee strict conformity.

112x60MM	Thinner can 500ml with 32MM Plastic Spout	105 +/-5 gram
112x60MM	Thinner can 1Ltr with 32MM Plastic Spout	145 +/-5 gram

CHEMICALS & ADHESIVES

Drums Size

Certain customers demand sizes which are apart from the general line of round or oblong shapes. The requirement is to fulfill sizes of 14 liters to 20 liters. Mostly consumed under Industrial lines and/or bulk filling, we supply a number of lid options in the drummy sizes as well.

Lubricant Line

The packaging of mobile lubricants in metal containers is regarded as one of the most distinctive brand packaging approaches, driven by the belief in the limitless potential of recyclable metals. Our company specializes in providing a diverse range of packaging solutions tailored to the lubricant industry, serving both domestic and international markets.

60MM	Break Oil	80 +/-5 gram
110x163MM	Mobile Oil 3Ltr with Pullout Spout	360 +/-10 gram
110x163MM	Mobile Oil 4Ltr with Pullout Spout	300 +/-10 gram
83MM	Mobile Oil 0.7L with Eoe	95 +/-5 gram
99MM	Mobile Oil 1L with Eoe	120 +/-5 gram

SPECIALITY CANS

Since COVID, there has been a growing interest in specialty cans of different shapes and sizes to cater towards a niche market of candles, bidh boxes, jewelry, candies, wearables, perfume packaging, clothing etc. We are working towards introducing more product lines to ease our startup clients in this segment also.
